ARCTIC TRUCKS AT44 FORD SUPER DUTY 6X6

Engineered for the most demanding deep field missions and operation, Arctic Trucks offers the ultimate 6x6 conversion. The AT44 Super Duty 6x6 leverages decades of experience in 6x6 suspension and driveline design and vehicle construction to bring you this incredibly rugged platform, capable of controlling heavy payloads with ease while boasting incredible off-road performance. The conversion begins with a Ford F350-F600 Cab Chassis, re-engineered with a fully boxed frame to prepare for the addition of the 2nd rear axle. The rear suspension is our proprietary 8-link design for improved articulation, stability, and load carrying capacity. A range of tires are available for different uses, including Continental MPT tires and our Arctic Trucks/Nokian 44" tire.

DIMENSIONS & SPECIFICATIONS

Curb Weight (Approx)	9,500 lbs
Payload (Approx)	9,000 lbs

Specification, pricing & dimensions are subject to change

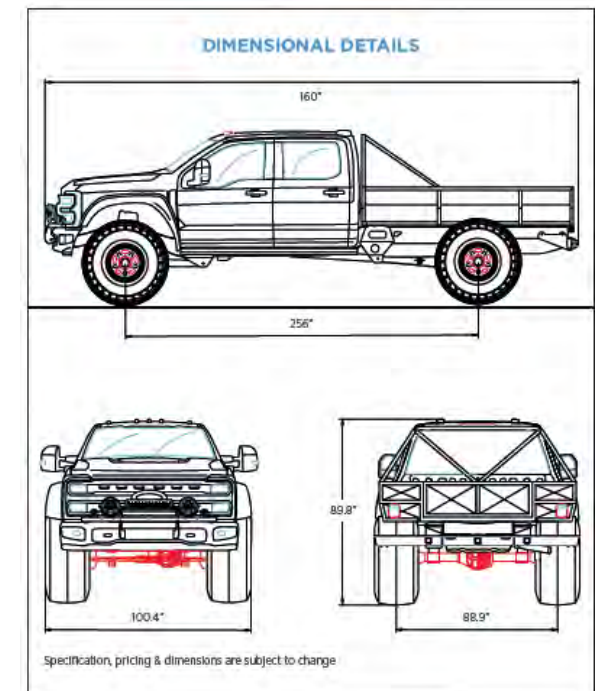

The use or disclosure of this information may be subject to the DFARS Limited Rights and other listed restrictions as shown on page 2 of this document.

ARCTIC TRUCKS AT44 FORD SUPER DUTY 4x4

The AT44 Ford F250/F350 Super Duty combines capability and payload capacity makes this truck the perfect versatile tool for Search and Rescue teams, infrastructure and exploration companies, and any user who requires dependability when venturing into demanding terrain expeditions.

DOT compliant 44" Arctic Trucks/Nokian Hakkapeliitta tires provide unmatched floatation for superior traction in snow, ice and rugged terrain while also allowing this ultra-capable truck to drive comfortably on the road between off-road expeditions.

The use or disclosure of this information may be subject to the DFARS Limited Rights and other listed restrictions as shown on page 2 of this document.

Toyota Hilux, 76, 79 & 300

Authorized Importer / upfitter for Toyota Vehicles

- **Toyota Hilux, 74, 76, 78, 79 & 300**
- **Vehicle Acquisition**
Supply stock vehicles to Military and Government agencies and its suppliers.
- **Mission Specific Configuration**
Team works with customer to develop a solution, not a product. Medical, C4SI integration, Armor, Weapons, whatever is required for mission fulfilment.
- **Sustainment**
Provide spare parts and accessories for equipment.

The use or disclosure of this information may be subject to the DFARS Limited Rights and other listed restrictions as shown on page 2 of this document.

Ford Truck & SUV Upfit

F150, F350, F650, Expedition Modification & Upfit

- **Engine Upgrade / Modifications**

Replace stock engine with larger, more powerful engine, or retune existing engine.

- **Off-Road Suspension Upgrades**

Upgrade stock suspension and tire configuration for greater offroad capability, including run-flats.

- **Armor Upgrades**

Add armor protection to vehicle based on threat requirements.

- **C4SI Integration**

Integrate customer Communications and Electronics equipment into vehicle platform.

- **Sustainment**

Provide spare parts and accessories for equipment.

The use or disclosure of this information may be subject to the DFARS Limited Rights and other listed restrictions as shown on page 2 of this document.

Water Purification System

Characteristics

Mobility

4x4 compact and easily transportable via air, land or sea

Operational Efficiency: Reduces logistical challenges and vulnerabilities

Simplicity

Designed for rapid setup and operation- less than 30 minutes deployment

Maintainability/Minimal Maintenance

Built for low-maintenance, long-term use with commodity filters and Spare parts for easy and rapid repair \ service

Scalability

The system is available in scalable capacity configurations.

Robustness and Durability

Designed to withstand harsh environments, extreme temperatures and rough handling, suitable for combat zones, deserts, jungles, or high-altitude operations

Features

Energy

Independence - Self contained system with on board power source
12V low voltage system

Night-Time Operation

Fully operational and maintainable 24/7

Lightweight

2425 pound / 1,100 Kg (Dry) including the vehicle

Onboard Control system

Operation via local cable or Wifi\Bluetooth with Smartphone\Tablet
Can be interfaced to any logistic system
Embedded analyzers allowing continuous quality control

Long-lasting performance

Capable of running non-stop for up to 3 days without requiring a fuel refill

The use or disclosure of this information may be subject to the DFARS Limited Rights and other listed restrictions as shown on page 2 of this document.

Zodiac Boats (RIBs)

Zodiac PRO 850 with 2 x Outboards

- 27'11" Length
- 9'10" Beam
- 3197 lbs Weight
- 2x250 HP Max Power
- 106 gallon Fuel Tank
- 25 Persons Max

Each Boat Includes:

Removable Tube

1 Bilge Pump

1 GRP Bow Roller

2 Battery Master Switches

2 Battery Couplers

2 Bilge Pumps

2 Fast Flow Bailers

4 External handles

Boarding Ladder

Easy Push valves

Inflator w/ Manometer

Internal and External Life-Line

Mooring Bitt

Repair Kit

1 Bow D Ring

Trailer available separately.
